TO RELEASE

GREATEST HITS

JUNE 26

ORANGE COUNTY, CA – Rock legends Social Distortion are set to release their **FIRST EVER** career spanning collection on June 26. Time Bomb Recordings will release the **Greatest Hits** on CD and limited edition vinyl. Classic songs from every classic album are represented in this definitive retrospective (track-listing below). From the early So-Cal punk track “Mommy’s Little Monster,” that put them on the map, on through to 2004’s radio hit “Reach For The Sky.” Covering Social Distortion’s three decade long career, Greatest Hits showcases the best in band leader Mike Ness’ heart-on-the-sleeve songwriting. Their classic cover of Johnny Cash’s “Ring Of Fire” is included as well.

“Far Behind,” is the hard charging new song recorded just for this collection and is the album’s lead single – hitting the airwaves May 15.

The band will tour worldwide in support of the Greatest Hits album. More dates to be announced through 2007.
